

Maxence Poutord

Software Engineer

I'm Maxence, a French Software Engineer with +10 years of experience developing web-based applications. I am a dedicated, hardworking, ambitious person that gets things done, both on my own initiative and within a team. I enjoy challenges and I am not afraid of getting my hands dirty. Because knowledge sharing matters to me, I spend a non-negligible part of my time sharing things through blog posts, mentoring sessions or conferences.

About

French, 34 years old

Skills

Proficient

JavaScript
React.js
Vue.js
Git
Testing (Jest&Testing library)
Web Accessibility (A11Y)

Comfortable

Node.js
NestJS
TypeScript
CI/CD
Web Performances
TailwindCSS
GraphQL

Familiar

Docker
Supabase
Functional Programming

Languages

Advanced

English

Native

French

Intermediate

Spanish

Interests

Canyoning (I guide group), running (100km/month), hiking, cooking, travelling (Asia, Europe), video games (Age of Empire II).

Highlights

- Write technical blog posts in French & English (see maxpou.fr)
- Mentor junior developers and people who want to retrain as a developer
- Tech trainer and public speaker (see maxpou.fr/speaking)
- Open sources lover and occasional contributor (see github.com/maxpou)

Experience

Senior Software Engineer

May 2021 - Present

Orderfox, Remote (Europe)

Migrated a web application to Typescript/React

Improved performance index (50 to 90 lighthouse score)

Led the migration from a REST-style to GraphQL

Senior Software Engineer

May 2018 - May 2021

VSware, Remote (Europe/Asia)

Improved the frontend infrastructure of a massive Vue.js application (~5k vue&js files / ~650k lines of codes). Frontend relies on a big monorepo (~40 packages)

Software designed and planned major architecture changes towards micro-frontends

Introduced and maintained a testing culture (from 0 to 3.1k unit & integration tests)

Worked on accessibility (A11Y) to meet WCAG AA conformance

Mentored junior developers

Software Engineer

November 2016 - April 2018

Hostelworld, Dublin, Ireland

Co-led the frontend migration of hostelworld.com from jQuery to Vue.js.

Architecture definition, development and maintenance of the main website (back+front)

Trained and mentored team to modern JavaScript and Vue.js

Consultant

May 2015 - April 2016

Conserto, Nantes, France

Architecture definition, development and maintenance of various web applications

Build proof of concepts/research and development

Draft and give training in PHP, Symfony2

○ **Web Developer/Project Manager**

October 2011 - January 2015

Energy Formation (ENGIE Group), Nantes, France

Creation of a web application based on the Symfony2 Framework
(expose/consume API)

Led a project which aims to reduce paper consumption by supplying
dematerialized documentation to customers

Education

○ **Architecte Logiciel / Software Architect (master degree)**

2013 - 2015

ENI Ecole Informatique, St Herblain, France

○ **Concepteur Développeur Informatique / IT developer designer (bachelor degree)**

2011 - 2013

ENI Ecole Informatique, St Herblain, France
